Journal Access Instructions

Instructions for ASM members to access journal content.

1. Login to the ASM website at www.asminternational.org.
2. Click on “My ASM” in the black toolbar running horizontally across the top of the screen.
3. On the left navigation pane, select “My Membership Benefits.” Drop down tabs with "ASM Membership" and any subscribed affiliate society should appear.
    a. Standard ASM Membership comes with access to the *Journal of Materials Engineering and Performance*, *Journal of Phase Equilibria and Diffusion*, *Metallurgical and Materials Transactions A*, and *Metallurgical and Materials Transactions B*, along with a relevant selection of Springer Nature journals.
        i. If you have subscriptions to other ASM content in addition to journals, such as the member magazine, *Advanced Materials and Processes*, and the ASM Desk Editions Online, they can be found under "ASM Membership" as well.
    b. Access to other journals such as the *Journal of Failure Analysis and Prevention*, *Metallography, Microstructure, and Analysis*, *Shape Memory and Superelasticity Journal*, and *Journal of Thermal Spray Technology* requires users to be members of the designated affiliate society associated with the desired journal.
4. Once you have selected the tab corresponding to the designated journal, scroll until you find the title and click on the blue "View" button on the right hand side. This will take you to the journal page on Springer.
5. If you are already logged into the ASM site on another page, you can access the subscription page by clicking on “My ASM" at the top of the screen.

Journal Troubleshooting

If you have recently been to the Springer site other than through the ASM website, it may remember you as a non-subscriber and indicate that access is not available or ask you to log in or pay for access. If that happens, you may need to clear out the cookies and temporary history files on your computer and close your internet connection. When you go back in through the ASM site, it should recognize you as a subscriber.
