

Dana M. Rosenblatt

**Associate Technical Fellow, Metallurgy
Boeing Research & Technology
The Boeing Company**

Dana Rosenblatt is an Associate Technical Fellow in Boeing Research and Technology. Her expertise is in aluminum alloys and their related technologies, processes, and applications. Ms. Rosenblatt is the technical lead engineer for the Puget Sound Metallic Materials group. Her group is responsible for the creation and maintenance of material and process specifications for metallic materials and supports the enterprise over the lifecycle of these materials. In her role, Ms. Rosenblatt provides technical advice to commercial, space, and defense programs throughout the Boeing enterprise and collaborates regularly with suppliers.

Ms. Rosenblatt received a Bachelor of Science and Master of Science in Mechanical Engineering from Texas Tech University.
