

# NAVIGATING A GREENER SKY

SYMPOSIUM ON ADVANCES IN THERMAL SPRAY AND  
PVD COATINGS FOR THE AEROSPACE INDUSTRIES

## Exhibitor List

### EXHIBITING COMPANIES

#### **BODYCOTE**

The leading provider of heat treatment and specialist thermal processing services worldwide. Bodycote is uniquely placed via our global network and the experience and knowledge of our people to offer high quality, reliable and cost-effective services to manufacturers whatever their size or market sector.

## **SALLOYTECH**

Salloytech specializes in the manufacture of Spare Parts Details and consumable materials used in special processes such as thermal spraying, hardfacing, brazing, welding, chemical processing, and others. We produce tooling for testing the properties of aerospace materials and coatings. Our main customers are factories producing new engine parts and MROs worldwide. Our production facility is certified to AS9100 standard, and we have a military license.

## **Surface Technology Surfaces B.V.**

Surface Technology Services (STS) collaborates with and provides professional services to clients who are industry leaders within their markets.

We are committed to sharing our expertise in Thermal Spray Coatings by offering a comprehensive service package; this includes development and application of engineered coatings, supply of latest generation thermal spray equipment & consumables, and providing extensive knowledge transfer. Within the group we have FST and EPC. FST manufacture thermal spray systems & equipment in addition to powders and consumables. EPC provides high quality coating services to a wide range of industry sectors.
